

## Material

### Grinding cones

The silicone grinding cones are perfectly suitable for grinding the edges of soft and permanently flexible plastic materials (e.g. EVA-based materials such as Streifyflex or Streifytec soft, LDPEs with low density, e.g. Streifylast). The silicone grinding cones are not suitable for hard materials and foams.

#### Material

- made of silicone
- colour: anthracite

| Art.no.   | Type | Thread |
|-----------|------|--------|
| 161P26/1  | 1    | M16    |
| 161P26A/1 | 1    | 5/8"   |
| 161P26/2  | 2    | M16    |
| 161P26A/2 | 2    | 5/8"   |
| 161P26/3  | 3    | M16    |
| 161P26A/3 | 3    | 5/8"   |
| 161P26/4  | 4    | M16    |
| 161P26A/4 | 4    | 5/8"   |
| 161P26/5  | 5    | M16    |
| 161P26A/5 | 5    | 5/8"   |

Order reference:

The desired type can be determined by means of the product picture, e.g. type 1:

Art.no. 161P26/1

resp. 161P26A/1.
