Legacy European AFO Sizing Chart

Mitchell Ponseti® AFO Size	(A) Foot Length (mm)
P6-0 (Premie 1)	60 to 62
P5-0 (Premie 2)	63 to 66
0000	67 to 70
000	71 to 75
00	76 to 80
0	81 to 87
1	88 to 92
2	93 to 102
3	103 to 112
4	113 to 122
5	123 to 132
6	133 to 142
7	143 to 152
8	153 to 162
9	163 to 172
10	173 to 182
11	183 to 192
12	193 to 202

Length and width measurement locations

Ponseti® Abduction Bar Size **	Minimum Width (cm)	Maximum Width (cm)
Extra Short ***	17.3	25.0
Short	20.0	30.0
Long	23.5	37.8

When sizing, we recommend leaving 0.5-1.0 cm room for growth; i.e. a foot length of 9.0 cm would be size 1. Please email us for sizing assistance at info@mdorthopaedics.com.

*The Mitchell Ponseti® Size P6-0 or P5-0 AFOs are permanently attached to a Premie Bar, which is pre-set to 10° dorsiflexion and 60° abduction. The bar adjusts in width from 15.0-20.0 cm, in 1 cm increments. The preemie bar can be cut down as small as 10 cm, upon request.

**The Ponseti® Abduction Bars are available in 10 or 15° dorsiflexion.

***The Ponseti® Abduction Bar, size Extra Short Bar can be cut down as small as 11 cm, upon request.
